

Intern to support in logistics and process management

 **Anting, Shanghai**

 **Production and Logistics**

Theory, you know. But how are things in practice? Find out. There are various possibilities and areas for you to do an internship at SAIC Volkswagen. They all have one thing in common: they will bring you valuable experience. Through an internship at SAIC Volkswagen you will get to know one of the world's largest automotive companies and work on responsible projects in a multinational context.

Your working environment:

Are you looking for an exciting and varied internship in the field of logistics? We offer you the opportunity to gain experience in a variety of fields. Support us in the organisation and control of logistics within our organisational unit. It is important to us that you experience and learn a lot during your internship - and have fun. That's why you will have a supervisor within your department at your side during the whole time.

Your qualifications:

- You are fluent in spoken and written English
- You have the motivation to work in an international context
- Good knowledge of MS-Office applications (think-cell, Word, Excel)
- Strong communication and cooperation skills as well as a high degree of personal initiative
- Confident appearance, independent and responsible work, willingness to work and ability to work in a team
- You are a registered student at a Chinese university

A recruitment is possible from: September 2019

Duration: 3 – 6 months

We recommend that you complete at least a six-month internship in order to get to know Volkswagen properly and familiarise yourself with your subject area. We can also give you the opportunity to write your Bachelor or Master thesis in our company.

It is important for us to impart the direct reference to practice and the application of theoretical knowledge. In addition, we want to offer the possibility to visit the production line and to communicate application-oriented experience.
