

# Internship at TLD Asia in Shanghai or Wuxi

**Topic: value stream design**

**Location: Shanghai and Wuxi**

**About Company:** French multinational company, market leader in civil aviation and manufacturing of ground support equipment ([www.tld-group.com](http://www.tld-group.com)) is looking for a Chinese or foreign student to pass a six months internship for Lean Production & value Stream analysis.

The company has 2 sites in China, in Wuxi and Shanghai. Both sites manufacture state of the art ground Support Equipment. Each site is having modern offices of international standards and is home to 80-100 employees.

As one of the first wholly foreign owned companies manufacturing GSE in China, TLD has a foot-print at all Asian airports for more than 25 years.

---

**About this job:** Looking for Value Stream Analysis & Value Stream Design interns for a multinational manufacturer of airport ground support equipment. The ideal candidate has a back-ground of logistics (Material & Logistics Management, Sourcing, Purchasing) and is interested to venture into the production planning, 5S, production optimization field. The internship will be for around 6 months and comprises the time taking and noting of every single assembly step, followed by an analysis of wasted times and an optimization plan with detailed working/assembly instructions.

---

**Requirement:** For each Location we are searching 1 candidate:

- Chinese National with FLUENT !!!!! English skills (Oral & Written)
- Foreign National with Engineering background (basic skills in Chinese )

We do prefer students in the Bachelor/Master's year wishing to do a respective thesis
