

BMW Group China

Job Position: BMW Technology Office China – Open Innovation Internship

Location: Shanghai (Sinar Mas Plaza, 388 Dongchangzhi Road, Hongkou District, Shanghai 200820, near the International Cruise Terminal Station, Line 12)

Recruiting Number: 1

Internship Recruit Period: 12/4/2019 – 1/3/2020 **On board Date:** After 1/3/2020

Job Description:

This internship position will provide an opportunity to investigate and test solutions of advanced technologies, intelligent functions and innovation for future vehicles, as well as to cooperate with other technology startups, to improve future BMW Group Products & Services. The possible working domain includes:

- Research & development, case study, prototype development and project management;
- Exploration in advanced technologies (Vehicle Sensor, 5G, Connected Drive, Artificial Intelligence, V2X, Deep Learning, Big Data, etc.) current status, trends and potential application in vehicle industry;
- Desk research and scouting tech startups, to explore any innovation cooperation potential.

Via this internship, you will be deeply involved in projects, conduct technology research with your line manager, learn the most advanced knowledge in automotive industry and have a chance to work with engineers from Munich, and experience BMW products by yourself.

Job Requirements:

- 1) Excellent academic background in Computer Science/ Mathematics/ Engineering; a graduate degree is preferred but not mandatory.
- 2) Familiar with at least one programming language (e.g. C++/ Python/ Java/ Matlab, etc.) with relative project experience; basic understanding of AI and ML.
- 3) Fluent English communication, in all aspects.
- 4) Experience in Microsoft Office tools (Excel/ PowerPoint/ Outlook).
- 5) Technology savvy and highly motivated self, as well as detail oriented attitude and fast learning capability.
- 6) Work continuously for at least 6 months, minimum 4 days per week.
- 7) Holding a Chinese Driver's License is preferred but not mandatory.
